## WOOD PRESERVATIVE

NOT FOR USE ON BROAD INTERIOR SURFACES SUCH AS WALLS OR FLOORS

### PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS WARNING

Harmful or fatal if swallowed or absorbed through the skin. Do not get in eyes, on skin or on clothing. Avoid breathing spray mists or vapors. Wear goggles or face shield and rubber gloves when handling Penta-WR.

#### ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

#### PHYSICAL AND CHEMICAL HAZARDS

Do not use or store near heat or open flame.

### STORAGE AND DISPOSAL

Keep container closed when not in use.

**PROHIBITION:** Do not contaminate water, food, or feed by storage or disposal.

Open dumping is prohibited

**PESTICIDE DISPOSAL:** Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

**GENERAL:** Consult Federal, State or local disposal authorities for approved alternative procedures.

### REPELS WATER—CLEAR AN IDEAL UNDERSEAL FOR PAINT STOPS ROT—IMPROVES ADHESION CONTROL WARPING—SWELLING RETARDS INSECT ATTACK

#### INGREDIENT STATEMENT

##### ACTIVE INGREDIENTS:

Pentachlorophenol*	4.47%
Other chlorinated phenols*	0.52%
Petroleum hydrocarbons	88.03%
INERT INGREDIENTS:	6.98%
Total	100.00%

\*Equivalent to 5.2% Technical Pentachlorophenol as defined by Fed. Spec. TT-W-570.

### KEEP OUT OF REACH OF CHILDREN WARNING

#### FIRST AID

**IF IN EYES—**Immediately flush with large quantity of water and get medical attention.

**IF ON SKIN—**Flush with water. Remove and wash contaminated clothing before re-use.

**IF SWALLOWED—**do not induce vomiting. CALL A DOCTOR.

**See side panel for additional precautionary statements.**

### RECOMMENDED USES

PENTA-WR is an outstanding general purpose wood preservative. It is recommended for windows, window frames, doors, stairs, porches, shingles, trellises, steps, subflooring, interior trim, fence pickets, fence rails, furring strips and arbors.

Neither PENTA-WR nor any other product containing pentachlorophenol ("Penta") should be used on broad interior surfaces or wood in contact with foodstuffs.

Powderpost beetles and termites are killed by application of this preservative. These insects will not attack properly treated wood.

In addition to retarding decay, blue stain, and insect attack on wood this preservative controls warping, swelling, shrinking and end checking caused by changes in moisture content of lumber and plywood products.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

The best results will be obtained if wood to be treated is immersed for 3 minutes or longer. If dipping is not possible, 2 liberal brush or spray applications should be applied. Allow at least 1 hour between applications. Make certain all areas are fully treated to get the maximum benefits. Allow 24 hours or longer after application of the preservative prior to painting. Less paint is needed over wood treated with this water-repellent wood preservative.

Fence posts, poles, foundation timbers and heavy wooden members should be free of bark, dry and well-seasoned and immersed in PENTA-WR for a period of 12 to 48 hours to be effectively preserved. Wood should be treated before use in construction.

Wear rubber gloves and protective clothing when handling the freshly treated lumber. Avoid contamination of feed or foodstuff. Do not use on wood that may come in contact with food, feed or livestock.

Do not use PENTA-WR inside any human or animal dwelling in any confined area where spray mist and vapors may concentrate. Do not use PENTA-WR on wood that is to be applied broadly to interior surfaces.

Treated sawdust and other wood waste should not come in contact with domestic animals or be used so they come in contact with useful living plants.

### NOTICE

Neither Chapman Chemical Company nor the seller makes any representation or warranty, expressed or implied, concerning use of this material, other than indicated on the label. Neither shall be held responsible in any manner for any personal injury or property damage or other type of loss resulting from the improper handling, storage or use of this material. The buyer accepts and uses this material on these conditions.
